

Hi 7th graders!

We hope you are enjoying your day at home and look forward to seeing you tomorrow for your first day of quarter 4!

All students are expected to complete every section. A completed packet with evidence of great effort turned in on Tuesday, March 14th will earn you free dress on our celebration day on March 24th.

In order to be prepared for learning tomorrow, please complete the following:

<b>Steps</b>	<b>Directions</b>
LC	Goal Setting
Language Arts	Grab a book or article and settle in for 20 minutes! After that, preview some of our upcoming vocab.
Math Ms. Frazee	SPED Directions: Work on this packet untimed with a calculator. Skip the problems you don't know and we will go over them in class on Monday.
Math Mr. Morty & Mr. Graves	7th grade math students: Work on your 1 page of math and complete all problems to the best of your ability. If you are unsure how to do a problem, the expectation is that you try your best.
Science	Start this on SATURDAY you will need 48 hours. You will need 1 egg and vinegar
Social Studies	Select a recent news article and summarize the article
IA	Complete the IA Bingo

## LC Assignment- Goal Setting

S	<p><b>Specific</b>            What am I going to do? Why is this important to me?</p>

Science Assignment

**This will require 48 hours so you should start it on Saturday**

What You Need

- raw egg
- tall glass
- vinegar

1. Place the egg in the glass or beaker, then cover the egg with vinegar.
2. Observe the egg. What do you notice?
3. Move the glass to a spot where it won't be disturbed. Leave the egg in the vinegar for 24 hours.
4. The next day, carefully drain the vinegar from the glass. Then cover the egg with fresh vinegar.
5. Move the glass back to its safe spot and keep it there for the next few days. Observe what happens to the eggshell, paying particular attention to the bubbles forming on the eggshell's surface.
6. After a few days are up, carefully pour out the vinegar and rinse the egg with water. The eggshell will have completely disappeared by now, leaving a translucent egg that is slightly larger than before.

Questions

1. What properties do you notice about the egg after the experiment?
  - a. Sight: \_\_\_\_\_
  - b. Touch \_\_\_\_\_
  - c. Smell \_\_\_\_\_
2. What do you think happened to the egg shell? \_\_\_\_\_
